DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenta Suzue on April 11th, 2005.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

An arrowhead is added to light rays (1350) to show that the 2nd part of the light beam is sent to detector (1330) with encoded information about the position of the conduit.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

3. Claims 1-37 are allowable over the prior art.

4. The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 4, & 28, US 6,845,190 B1 to Smithwick et al and US 2002/0064341 A1 to Fauver et al disclose optical fiber scanners with actuator devices. Fauver et al disclose sensors (30) to aid in determination of the position of the fiber (22), while Smithwick et al disclose sensor (162) to determine the position of fiber (34).

Art Unit: 2878

However, neither Smithwick et al nor Fauver et al disclose or suggest the use of a 2nd light part coupled to an optical pattern element that would encode information about the position of the conduit. As a result, independent claims 1, 4, & 28 and dependent claims 2-3, 5-27, & 29-37 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
